## HOW DO WE TRAVEL?

Trains, planes, automobiles....and anything in between. Anavista has recently custom built a luxury 4x4 Overland vehicle with seating capacity of 10 passengers. We would make use of this vehicle or a Land Cruiser or a combination of these, depending on the number of people and type of trip we are planning to undertake.

OPEN CAB TO PASSENGERS

Our new Iveco luxury Overlander has 9 reclining seats. Overhead reading light p/seat, individual air conditioning ports, tray table, adjustable footrest. A wide windowsill for packing space with 12v & 5v charging jack points.

In the event of a lodge to lodge safari, you have 10 seats for your use. In the event of a camping trip you have 9 seats to make use of as the 10<sup>th</sup> seat will be occupied by a courier as assistant, (front left).

In the event of your group size being larger than 9 or 10 we will incorporate additional vehicles, whether they are additional people carriers or equipment carriers.

9 SINGLE SEATS + 1 UP FRONT
